#9 MILL MANAGER'S HOUSE
805 NE 5th, Camas, Washington

Built in 1923 by Crown Willamette Paper Co., later to be known as Crown Zellerbach, this house was used by each resident manager until 1980 when it became a private residence.

#10 Open House
FIRST CHRISTIAN CHURCH
404 NE 6th Avenue

The First Christian Church was built in 1912 in downtown Camas. In contrast to the typical rectangular, gable-roofed, steepled churches of other religious denominations, this octagonal building has a central cupola. The sloping site provides for a daylight basement. Each of the major planes of the octagon is framed by endboards, frieze, and sill, and sheathed in narrow clapboard siding. Stained glass windows are featured on six sides, and a central cupola rises above the main roof and has paired clerestory stained glass windows on each of its eight sides.

When begun, the church had 15 charter members.
